SANDVIK MT720 (ATM 105)

MAIN DIMENSIONS

Total weight 135 (t)
Total length 15.00 (m)
Height over canopy 4.60 (m)
Width over loading table 4.56 (m)
Width without loading table 4.03 (m)
Width of crawler tracks 720 (mm)

ELECTRICAL SYSTEM

Potential 1100 / 60* (V / Hz)
Total installed electric
Motor power 522 (kW)
Cutter motor 300 (kW)
Hydraulic power pack motor
150 (kW)
Loader motors 2 x 36 (kW)
Auxiliary motors (optional)
- cooling system 2 x 4 (kW)

*Optional conversion to 50Hz

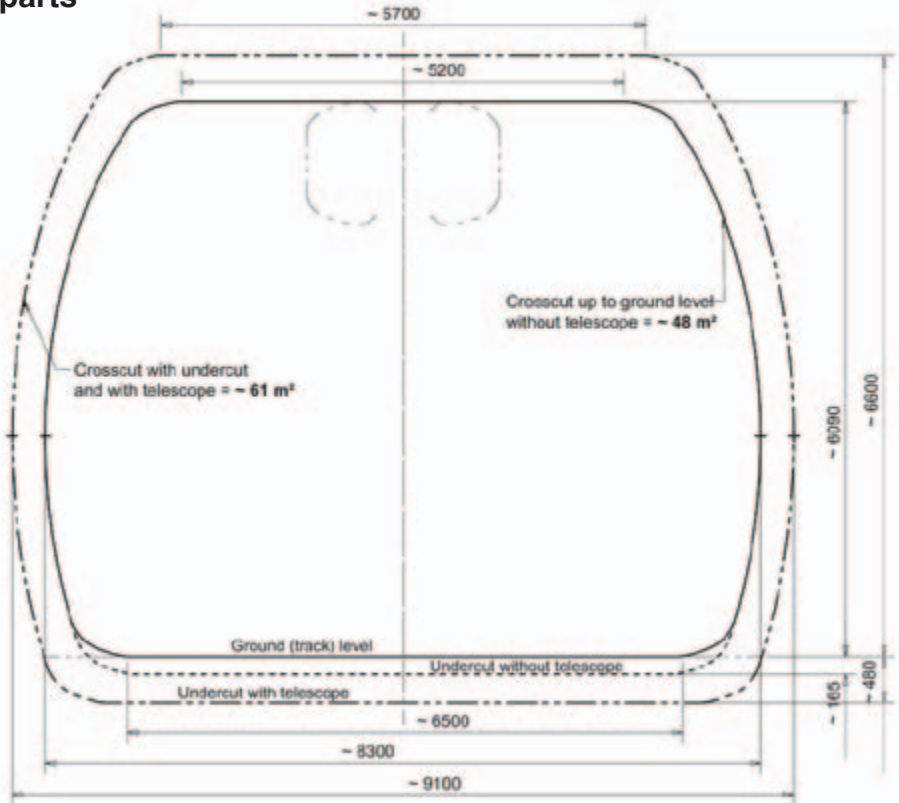

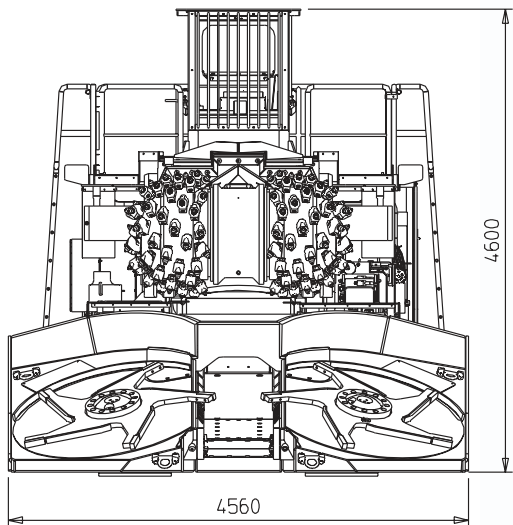

CUTTING PROFILE AND GEOMETRIC CHARACTERISTIC

Max. cutting profile
- extended telescope 61.0 (m²)
- retracted telescope 48.0 (m²)
Max. cutting height 6.6 (m)
Max. cutting width 9.1 (m)
Undercut 280 (mm)
- extended telescope 480 (mm)
- retracted telescope 165 (mm)
Max. horizontally slewing angle
- cutting boom 2 x 37 (°)
Max. position of loading device
- above track level 635 (mm)
Max. position of loading device
- below track level 230 (mm)

Machine Hours: Forthcoming

Location: United States

Large inventory of spare parts
