

MULTIJOB MJX

CONTINUOUS ROTATION BACKHOE-LOADER

TELESCOPIC LOADER

DRIVEABLE FROM EXCAVATOR POSITION

4 x 4 x 4 DRIVE/STEER

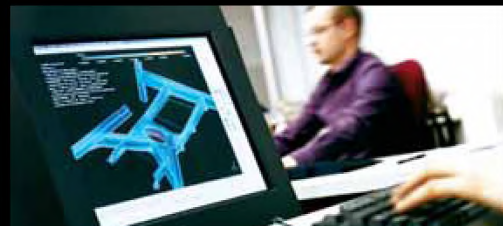

Haulotte 
GROUP
Experience in Innovation

MULTIJOB MJX DESIGN

Haulotte: the innovator
in equipment performance.

Based on its technical know-how and innovation skills, the Haulotte Group has designed a unique range of civil-engineering machines known as MULTIJOB.

«We meet our customers' expectations by listening attentively to their requirements with respect to product performance, higher equipment standards and modular applications.» The MULTIJOB combines a continuous rotation excavator with a telescopic loader, allowing you to MULTI TASK your MULTIJOB. The MULTIJOB is extremely versatile, so you can tackle difficult jobs with ease.

Haulotte
GROUP

ROBUSTNESS AND RELIABILITY

From the study process to the actual design, Haulotte is able to convert your requirements into technology solutions. The quality of mechanical, hydraulic and electrical components guarantees reliability of your MULTIJOB while making your safety a priority.

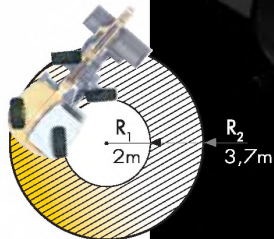

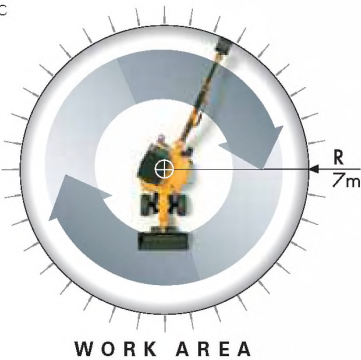

COMPACT

MANOEUVRABILITY

Enhanced manoeuvrability on your construction site.

Whether using the excavator side or loader side, the progressiveness of the hydrostatic transmission and the accuracy of the steering system enables you to benefit from the exceptional performance of the four drive-steer wheels of your MULTIJOB in any environment. An inching pedal allows slow and accurate movement of the MULTIJOB. From automatic selection of the steering mode to automatic alignment of the second drive-axle, the MULTIJOB is perfectly suited for civil engineering works.

STABILITY

With its rigid chassis, your MULTIJOB boasts superior stability, no matter what the rotation position or the excavator is. The double offset boom, allows you to carry out your work whilst leaving sufficient space to allow vehicles to pass. External noise levels are fully compliant with world standard noise limits.

VERSATILITY

Change your tools from the driver's seat!

The quick attach feature on the excavator and loader allows you to change your tools in no time from the cab. The MULTIJOB reversible buckets will increase your productivity.

Enhanced visibility and comfort from any angle.

Haulotte designs its operator cabs to ensure that the ergonomics of your MULTIJOB, which complies with ROPS and FOPS standards, will satisfy your requirements for comfort and convenience. The easy-access soundproof cab features an operator's seat, adjustable in all directions, incorporating pivoting armrests. Multi-function control levers, generous space, and large windows provide unrestricted all-round visibility.

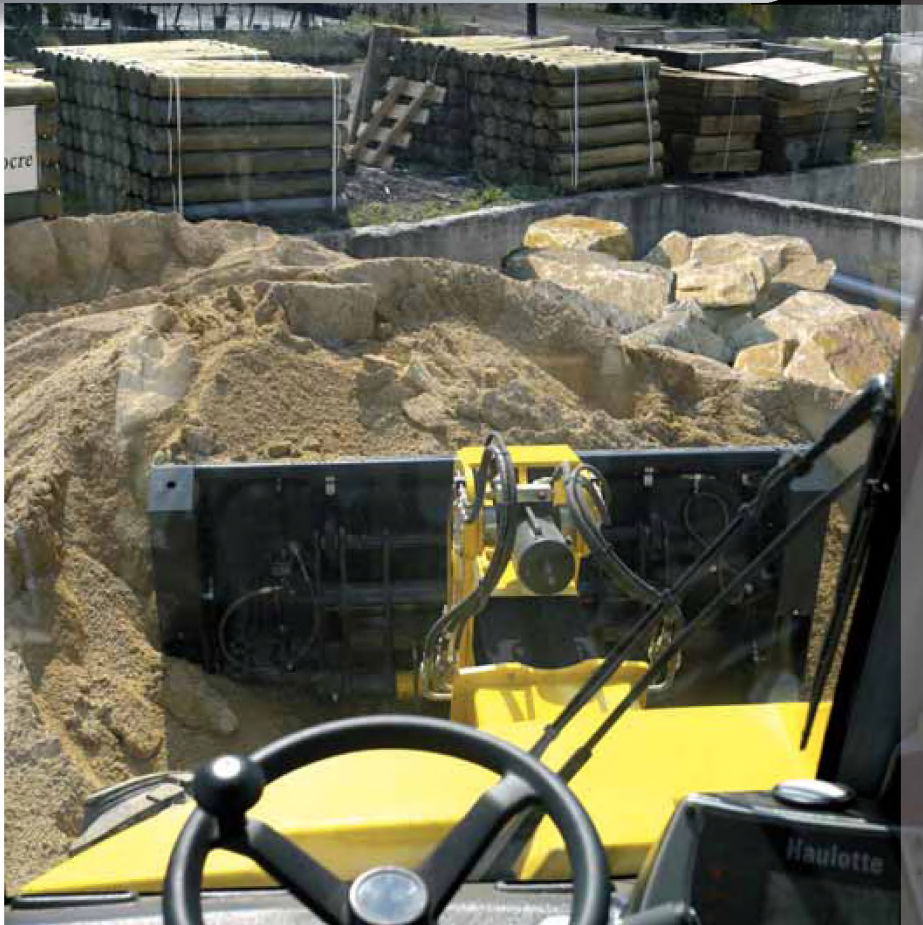

A double control station

The MULTIJOB is equipped with proportional hydraulic controls as standard. The excavator and loader control stations, are easily adaptable to any user. The multi-function control levers are ergonomically designed for optimum operator comfort.

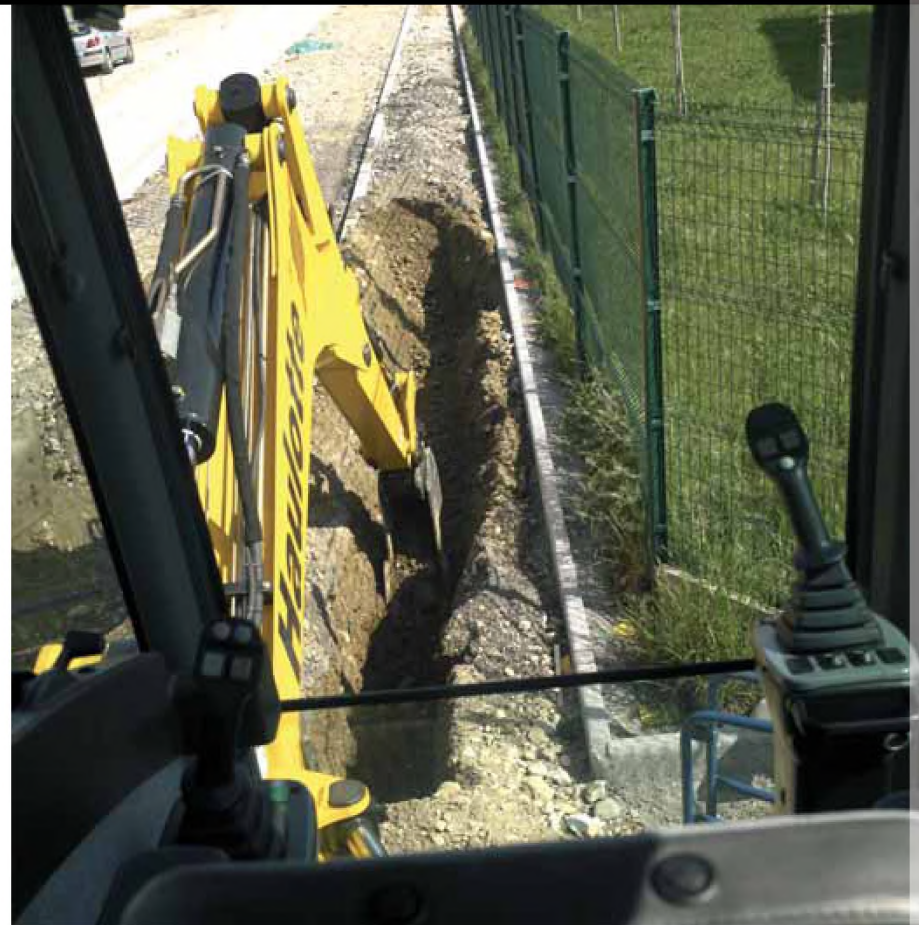

- Excavator and drive controls
- Driving position
- Telescopic loader control

VISIBILITY

LOADER SIDE

EXCAVATOR SIDE

SAFETY

The MULTJOB is designed to ensure relocation is a simple and safe operation. Just as on the construction site, regardless of your environment, you will benefit from ideal working conditions for safe and controlled operations.

ON THE ROAD

MULTIJOB MJX RANGE

EQUIPMENT

	MJX 950	MJX 970	MJX 990
LOADER			
1000 l bucket (with floating position)	Earthmoving		4 in 1
Telescopic boom (self leveling attachments)	Standard		Long
Oscillating axle with hydraulic lock	Standard		
Quick attach	Standard		
EXCAVATOR			
Boom with quick attach	Mono-block boom	Offset boom	
Drive system	Standard		
Reversible buckets	610 mm	Choice of 3 rear buckets	
Hydraulic boom foot articulation	Standard		
TRANSMISSION / CHASSIS			
Drive / steering system	4 WD / 4 WS at both control stations		
Hydrostatic transmission (low/ high speed)	0 to 8 km/h - 0 to 30 km/h		
Rigid chassis equipped with 2 powered axles with restricted slippage	Standard		
4 wheels (all equal) - 14 ply - 20"	Standard		
SAFETY			
Cab complies with ROPS & FOPS standards	Standard		
High visibility safety glass windows with partial tinting	Standard		
Reversing alarm - rotating beacon - lighting to meet road regulations	Standard		
Two independently controlled stabilizers equipped with lock valves	Standard		
CAB			
Tiltable steering column and adjustable excavator controls	Standard		
Retractable window on excavator side - side window partial opening - sun visor on loader side	Standard		
Adjustable seat with armrests and seatbelt	Standard		
3 position heating and ventilation	Standard		
OTHER FEATURES			
Turbo engine with water-cooling - 92 cv / 68 kW	Standard		
Standard paint (RAL 1006/7012) - wiring for radio - 4 work lights (2 front/2 rear) - tool box	Standard		
User and maintenance manual - spare parts catalogue - CE compliance certificate	Standard		

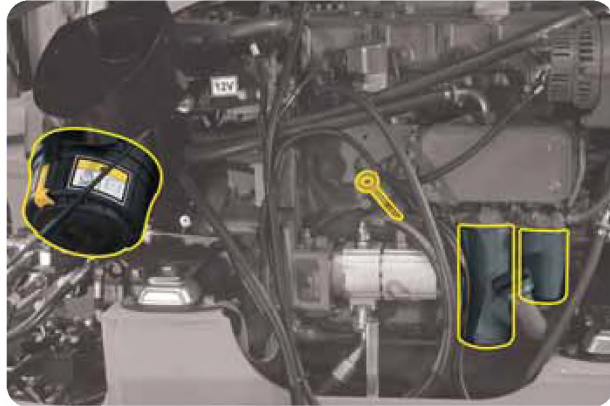

OPTIONS

• Double-offset boom	Optional	Standard	Standard
• Long telescopic boom	Optional	Optional	Standard
• 4 in 1 bucket (1000 l)	Optional	Optional	Standard
• Electric diesel filler pump	Optional	Optional	Standard
• Double-acting hydraulic couplings on loader side	Optional	Optional	Standard
• 1 additional double-acting hydraulic couplings on excavator side	Optional	Optional	Optional
• 1 hydraulic couplings on clamshell bucket	Optional	Optional	Optional
• 2 additional double-acting hydraulic couplings on mono-block boom	Optional		
• Reversible bucket from 300mm to 900mm	Optional	Optional	Optional
• Load-handling (1.00m forks - apron - loader, boom, dipper equipped with lock valves - compliance certificate)	Optional	Optional	Optional
• Custom paint	Optional	Optional	Optional
• Pneumatic seat	Optional	Optional	Optional
• Air-conditioning	Optional	Optional	Optional

The applications

Accessibility and Serviceability solutions in action!

With Haulotte, an extremely attentive customer service is guaranteed. In ensuring prompt delivery and technical assistance in the event of in-field breakdown or technical failure, we help you to improve your day-to-day operations. Thanks to easy access to all components and service parts of your engine, you will benefit from ease of maintenance for your servicing operations. Wide covers, large access openings, minimized and highly visible greasing points make routine maintenance simple and easy. All these features combine to further enhance convenience and productivity.

Accessories

reversible buckets

4 in 1 / Standard

grapple

clamshell bucket

auger

kerb-layer

forks

sweeper

Multijob, a unique way of being versatile!

AN EXTENSIVE NETWORK OF EXPERTS READY TO RESPOND TO YOUR EVERY NEED

After-Sales Service

An extensive distributors network.

24/7 technical assistance :

- A team of more than 100 engineers, tuned to your needs, are at your disposal.
- Quick and efficient response to customer calls for assistance.

Spare parts :

- 40,000 referenced items in stock.
- 24-hour dispatch worldwide.
- Original Haulotte parts ensure reliability of our equipment.

Training

- Operator training
- Structured or tailored service training courses
